

Lesson Plan Checklist

_____ Students – Who will be the students participating in this lesson?

_____ State Standards – What state standards are addressed by this lesson?

_____ Rationale – Why are you teaching this lesson at this time with these students? How does this lesson relate to the lesson before it and the one that will come after it?

_____ Topic

_____ Objectives – What do students need to know by the end of this lesson? What should students be able to do after this lesson? Example: Students will be able to find their home town on a map of Minnesota.

_____ Resources Needed – What materials need to be made, collected, or organized?

_____ Accommodations – What are the special needs of my students? How will I differentiate instruction for various ability students? What additional resources or support may I need?

_____ Procedures – What are my step-by-step procedures? How can I anticipate questions students may have? What will I do if students do not understand?

_____ Assessment – How will I know that students have met the objectives? How will I provide feedback to students?

Reflection Questions

What did your students take away from this lesson? Were your objectives met? Support your ideas with specific evidence observed.

How were special needs met in this lesson?

What changes did you make during the lesson and why?

What worked well?

What were the differences from what you thought would happen and what actually happened?

What needs to be done differently if this lesson is taught again?

How will the next lesson relate to this one?
