

Moorhead, MN • (218) 477-4000

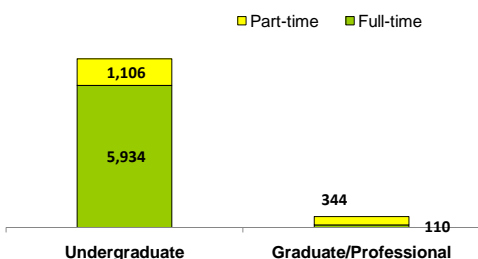

<http://www.mnstate.edu>

Minnesota State University Moorhead is a member of the Minnesota State Colleges and Universities System, serving 7,500 students with 493 full- and part-time faculty members. MSU Moorhead offers 75 undergraduate majors with 138 emphases and options, 13 graduate degrees, 2 specialist-level graduate programs, an applied doctorate in nursing, licensure preparation and international study programs. Tri-College University allows MSUM students to take courses at neighboring North Dakota State University and Concordia College at our low tuition rate. New campus facilities include a wellness center, science building, and center for business; arts complex; planetarium; and a 200-acre off-campus regional science center.

The Dragons Community

MSU Moorhead offers many opportunities to enrich student life/experiences and provide support for academic endeavors. These include Comstock Student Union, a Wellness Center, 100+ student organizations, Student Senate. Cultural events such as the Unity Conference, Woodlands & High Plains Powwow, Black History Month, & Celebration of Nations. Both NCAA Division II athletics plus intramural athletics are offered. Opportunities for music performance (choir, orchestra, ensembles) & theatre activities (Straw Hat Players). Academically, MSUM offers a Peer Advisor program whereby upper-level students assist freshmen. The Write Site offers tutors for writing assignments. The Supplemental Instruction Program provides assistance to students in challenging math, science, and accounting courses. Academic Fitness & First Year Experience programs help with the transition to college life. A new Science Laboratory Building, Regional Science Center, & Planetarium are geared to science enthusiasts.

Campus Safety [More](#)

MSUM Campus Security provides a safe environment with 24-7 foot/vehicle patrols, 24-hour walking escort service, investigating reported incidents, and responding to medical assistance, emergency calls and fire alarms. Emergency blue-light phones are strategically placed on campus. Timely warnings are emailed to students/staff, and students can sign up to be notified by text message in the event of an emergency. Safety tips are found on the Campus Security website (see "more" button above).

Student Experiences and Perceptions

Students who are actively involved in their own learning and development are more likely to be successful in college. Colleges and universities offer students a wide variety of opportunities both inside and outside the classroom to become engaged with new ideas, people, and experiences. Institutions measure the effectiveness of these opportunities in a variety of ways to better understand what types of activities and programs students find the most helpful.

[CLICK HERE](#) for examples of how MSUM evaluates the experiences of its students.

In addition, institutions participating in the VSA program measure student involvement on campus using one of four national surveys. Results from the one survey are reported for a common set of questions selected as part of VSA. Following are the selected results from the 2005-06 National Survey of Student Engagement (NSSE). The questions have been grouped together in categories that are known to contribute to student learning and development. The results reported below are based on the responses of seniors who participated in the survey.

Student Learning Outcomes

All colleges and universities use multiple approaches to measure student learning. Many of these are specific to particular disciplines, many are coordinated with accrediting agencies, and many are based on outcomes after students have graduated. In addition, those institutions participating in the VSA measure increases in critical thinking, analytic reasoning, and written communication using one of three tests.

Student Learning Assessment at MSUM

The primary purpose of Minnesota State University Moorhead (MSUM) is to educate our students. The true measure of our institution is how well our students learn the knowledge and skills we have determined are critical to their success as individuals, professionals, and citizens. The process of assessing student learning, then, is a vital part of understanding how well we are accomplishing our goals. Assessment of student learning at MSUM has two major components: (1) The first focuses on student learning outcomes as stipulated in the expectations of degree-granting programs. These student learning outcomes are also specified in the MSUM Bulletin. If appropriate, non-degree programs may also specify student learning outcomes and assess those outcomes. (2) The second component is assessment of student learning in the Dragon Core by the Dragon Core Assessment Committee. Dragon Core student learning outcomes are specified in the Dragon Core Competency Areas.
