

Math 450

Presentation Topics

**Note:** The following is a list of potential presentation topics. If you do not see one on the list that captures your imagination, come talk with me and we can discuss an alternative topic. You should inform me of both your project topic and who you are working with by 4:00pm on Monday, November 19th.

- Bezier Curves [Section 3.6 in your textbook]
- Techniques for Multiple Integral [Section 4.8 in your textbook]
- Techniques for Improper Integrals [Section 4.9 in your textbook]
- Higher Order Differential Equations [Section 5.9 in your textbook]
- Any topic from Chapter 6 or Chapter 7
