

Math 450

## Presentation Topics

**Note:** The following is a list of potential presentation topics. If you do not see one on the list that captures your imagination, come talk with me and we can discuss an alternative topic. You should inform me of who you will work on your project with (by email) on or before Monday, October 22nd. You should select your project topic by Monday, November 5th.

- Bezier Curves [Section 3.6 in your textbook]
- Techniques for Multiple Integral [Section 4.8 in your textbook]
- Techniques for Improper Integrals [Section 4.9 in your textbook]
- Higher Order Differential Equations [Section 5.9 in your textbook]
- Any topic from Chapter 6 or Chapter 7
