

Math 487

Presentation Partner Review

Instructions: Type your responses to each of the following questions on a separate piece of paper. This assignment is worth 5 points toward your project grade.

1. Give the title of your presentation and list the students who helped prepare and deliver the presentation.
2. Was this presentation a worthwhile experience? Should I change anything about how the presentations work before using this assignment for future classes?
3. Give a short critique of your fellow project partners. Did every team member contribute to the project? Was the level of participation of each team member satisfactory? Were there any team members who did significantly more or significantly less of the work that led to the final form of the presentation?
4. Tell me anything else that you would like me to know about your experience doing this project.
