

# Math Seminar Grading Rubric

## Presentation:

Did the presenter(s) get the audience's attention and convey the significance of the topic?

3      2      1      0

Was the content well organized?

6      5      4      3      2      1      0

Were there effective and appropriate visual aids (slides, handouts, etc.)?

4      3      2      1      0

Did the presenter(s) adhere to the time limit? Was the time managed well?

3      2      1      0

Was the delivery effective (volume, tone, gestures, eye contact with audience)?

4      3      2      1      0

## Mathematical Content:

Were terms clearly defined and theorems clearly stated?

8      7      6      5      4      3      2      1      0

Was the mathematical content presented in a way that was both clear and accurate?

8      7      6      5      4      3      2      1      0

Was there a sufficient depth and breadth of material presented?

8      7      6      5      4      3      2      1      0

Were appropriate examples and/or applications discussed?

8      7      6      5      4      3      2      1      0

Were appropriate visualizations used (graphs, tables, diagrams, manipulatives, etc.)?

8      7      6      5      4      3      2      1      0

**Total:** \_\_\_\_\_ (out of 60 possible points)

**Notes:**
