

Instructions: In the space provided, please briefly respond to each of the following prompts.

1. Write down some key definitions that you remember from previous Geometry Courses.
2. If you had to make a guess, what concepts and topics do you think we will learn about in this course?
3. How confident are you about your ability to understand and create formal and informal mathematical arguments?
4. What questions or concerns, if any, do you have going into this course?
5. Please share any thoughts you have in response to the 1-page blog post on the idea of “Productive Failure”.
