

Due: At The End of Class on Friday, January 25th

**Instructions:** The “Diagrams and Graphs” handout that you just received contains a few short excerpts from a Calculus textbook. Working in groups of 2 (we can have one group of 3 if there are an odd number of us present), take a few minutes to examine the figures, graphs, and illustrations in these excerpts and consider their overall effectiveness. For each figure/graph/illustration, be sure to consider the following features:

- the captions and labeling
- the size and scale
- the placement on the page
- the mathematical notation
- the overall design

**Write comments and observations about each of the figures, graphs, and illustrations in the space provided.**
