

Math 491 - Mathematical Writing
Writing Assignment #6
Due: By 4:00pm on Wednesday, February 27th

Instructions:

You will take the article you read for Assignment #5, submit a well-written one page polished summary of the mathematical content of the article. Your paper should be written for a reader who is already familiar with the subject matter but not familiar with this particular article. Your focus should be on clearly communicating the content covered in the article (not on critiquing the quality or clarity of the source material).

Grades will be based on how well you summarize the content of the article and on the quality of your exposition.

This assignment is due **by 4:00pm on Wednesday, February 27th.**
