

TEXT: *Mathematical Writing, notes by Walter Sizer (rev 2010).*

SCHEDULE: The daily schedule may vary slightly from the schedule given below. School closures (weather related or otherwise) could also lead to changes in this schedule – if there is significant deviation from this schedule, a revised schedule will be posted to the course website. You are expected to arrange your schedule to allow you to complete and submit all assignments (including the final paper) on or before their scheduled due dates.

HOMEWORK: Please read through and take notes on assigned portions of the book to before coming to class each day and/or complete the assigned homework in preparation for the discussions and activities planned for each class session.

ACTIVITIES: The class activities listed in this schedule are intended to correspond closely with what we actually end up doing in class. However, as the semester progresses, there will almost certainly be minor changes (additions, deletions, and modification) to what is outlined in this document.
