

Required Text and Materials

Chem 210 Spring 2015

- 1) Lecture Text: "Chemistry: The Science in Context, 3e", 3rd Edition, by authors Gilbert, Kirss, Foster, Davies. Norton Press.
- Note: **because the 3rd edition is not new, it is quite cheap on-line.** The 4th edition is a newer version, so it is full priced. By using the 3rd edition, we can get used ones on line for low price.
 - I'm seeing hard-cover books for as little as \$10
 - This is the same book that Dr. Marasinghe used last semester

Amazon Link to 3rd edition: http://www.amazon.com/Chemistry-Science-Thomas-R-Gilbert/dp/0393934314/ref=sr_1_1?ie=UTF8&qid=1420138180&sr=8-1&keywords=gilbert+chemistry+3rd+edition

- 2) Lecture Solutions Manual, very strongly recommended but not required: "Student Solutions Manual: for Chemistry: The Science in Context, Third Edition", author Karen S. Brewer
- With a solutions manual, you can get immediate feedback on if your answers are right or not, and also get input into problem-solving logic.
 - I'm seeing these available for as little as \$5

Amazon Link: http://www.amazon.com/Student-Solutions-Manual-Chemistry-Science/dp/0393934543/ref=sr_1_1?ie=UTF8&qid=1420138350&sr=8-1&keywords=gilbert+chemistry+3rd+edition+Solutions+Manual

- 3) On-Line Homework: SmartWork On-line Electronic Homework
- Registration details: <http://books.wwnorton.com/books/sw-student-how-to/>
 - ENROLLMENT KEY: CHEM210 (case-sensitive).
 - Not sure on price, I think \$25 for a one-semester package?
 - If you buy a new book, perhaps you bought it with the SmartWork code included?
 - You may have had the option first-semester of buying a 720-day permission, in which case you wouldn't have to pay again now.
 - If you bought your book from a friend, they may perhaps have the registration code somewhere?
