

Required Text and Materials

Chem 350/Chem 360 Fall/Spring 2010/2011

- 1) Text: "Organic Chemistry 6th Edition" (or 7th edition is also fine)
 - Author: L. G. Wade JR
 - Published by Pearson Prentice Hall
 - ISBN 0-13-147871-0 (6th edition)
 - ISBN 0-32-159231-0 (7th edition)
 - 1) Note: because the 6th edition is not new, it is very cheap on-line. The 7th edition is the newest version, so it is much, much more expensive. That's why I'm sticking with the 6th edition.
 - 2) Amazon Link to 6th edition: <http://www.amazon.com/Organic-Chemistry-Leroy-Skip-Wade/dp/0131478710>
 - Note: if you already have a copy of McMurry's Organic Chemistry as used at NDSU, either 6th or 7th edition, you could be able to use that. Contact me for details.

- 2) "Solutions Manual" for "Organic Chemistry Sixth Edition" (or 7th edition is also fine)
 - Authors J. W. Simek, L. G. Wade Jr.
 - Published by Pearson Prentice Hall
 - ISBN: 0-13-147882-6 (6th edition)
 - 1) Amazon Link: http://www.amazon.com/Solutions-Chemistry-GradeTracker-Workbook-included/dp/0131478826/ref=pd_sim_b_2
 - ISBN-10: 0-321-59871-7 (7th edition)

Chem 355/Chem 365 Fall/Spring

- 1) Safety Goggles
- 2) A lab manual will be made available on line for printing.
- 3) No lab book to order or purchase in advance.
