

Required Text and Materials

Chem 350/Chem 360 Fall/Spring 2010/2011

Summary:

1. I am using Wade 6th Edition as my Book. But if you have Carey (8th), a McMurry, or a different edition of Wade, I can provide listings of problems and reading assignments that should work.
2. Buying them on line is way cheaper than in the bookstores. Buying an edition that isn't the most current is also way, way cheaper.
3. You need a solutions manual to go with whatever text you are using.
4. For lab, there is not a book to buy. I will provide writeups on-line. At present I don't have the full lab manual for either semester ready.

1) Text: "Organic Chemistry 6th Edition" (or 7th edition is also fine)

- Author: L. G. Wade JR
- Published by Pearson Prentice Hall
- ISBN 0-13-147871-0 (6th edition)
- ISBN 0-32-159231-0 (7th edition)
 - 1) Note: because the 6th edition is not new, it is very cheap on-line. The 7th edition is the newest version, so it is much, much more expensive. That's why I'm sticking with the 6th edition.
 - 2) Amazon Link to 6th edition: <http://www.amazon.com/Organic-Chemistry-Leroy-Skip-Wade/dp/0131478710>
- Note: if you already have a copy of McMurry's Organic Chemistry as was used at NDSU until Fall 2010, either 6th or 7th edition, you could be able to use that. Contact me for details. If you have a copy of Carey's Organic Chemistry, as was used at NDSU during Fall 2010, you could be able to use that. I will either put a link on my website to readings and/or recommended problems from these other books, or else you should contact me.

2) "Solutions Manual" for "Organic Chemistry Sixth Edition" (or 7th edition is also fine)

- Authors J. W. Simek, L. G. Wade Jr.
- Amazon Link: http://www.amazon.com/Solutions-Chemistry-GradeTracker-Workbook-included/dp/0131478826/ref=pd_sim_b_2
- Published by Pearson Prentice Hall
- ISBN: 0-13-147882-6 (6th edition)
- ISBN-10: 0-321-59871-7 (7th edition)

Chem 355/Chem 365 Fall/Spring
