Testing: Either Live at MSUM or PROCTORED for distance students.

1. **Testing:** Testing will best involve free-form, hand-written tests. **These will require a proctor, either live or online.** The nature of organic chemistry normally requires drawing/illustrating complex structures for chemicals and electron movements during reaction mechanisms. As such multiple-choice questions are not ideal. (Plus no partial credit exists!) (If necessary during COVID-19 days, perhaps multiple-choice testing may be a backup option, though.)

2. **Flexible Test Scheduling:** There are **not fixed tests dates.** To some degree, you can make arrangements to take the tests (within limits) at your own schedule. And you can start way early!
   - You could individualize your schedule. Gone for a long weekend for a family vacation or a wedding or national guard? Having surgery and missing a week? You could work ahead as needed to ensure the ability to master all of the material.

3. **Testing Options**
   a. **Testing live at MSUM:** Monday, Wednesday or Friday at 10 am, Hagen 405/407J
      - With the flexible, asynchronous test scheduling, different students will be ready for tests at different times. The next available Monday, Wednesday or Friday will always be an opportunity. (Exception: July 6-10, I’ll be gone for family reunion, COVID permitting!)
      - I have a nice, sanitized conference room (Hagen 405) by my office (Hagen 407J).
   b. **Special Arrangement Testing at MSUM** at times other than M/W/F 10:00am. Depending on my schedule and availability, feel free to at least ask if you could take a test at a time that works better for you. I will probably say yes! Most M-F between 9-5 can work.
   c. **Live-Proctored Testing,** local to you: You would make the arrangements. Arrange to have your tests proctored, **typically at a local college, library, church or high school, etc.** or with some other responsible individual.
      1) For taking proctored tests, **YOU will need to find/arrange the proctor; arrange scheduling with that proctor; email me the email, name, phone number, and job for your proctor; and email me a website for the organization that the proctor is a part of.** (For example, if your church pastor is going to proctor your exam, I’d like to look him up to make sure he and the church really exist, before calling him to confirm! 😊)
      2) For proctored tests, I will email tests to the proctor who will print them. After a test is done the proctor will scan and email me the answers and destroy the printed copy.
      3) Because it takes some time to communicate with the proctor, to load and send copies of tests, and for the proctor to print them, it helps to have some advance notice! 😊)
      4) Prior to COVID, most colleges have proctoring services.
      5) Prior to COVID, many public libraries are willing to provide proctoring services
   d. **Proctored Testing via ZOOM:** You make arrangements with me; I send you the test; and I monitor you online via ZOOM. This is especially practical during COVID-19 restrictions or quarantine. You wouldn’t need to leave your home.
      - My Zoom-room link: [https://minnstate.zoom.us/j/8827046226](https://minnstate.zoom.us/j/8827046226)
   e. **Multiple-Choice Tests.** In the event that Zoom-testing becomes impractical, I may be able to use multiple-choice tests.

4. **Testing time is 90 minutes**
   1) Tests are structured so that a well-prepared student should be able to complete a test in 50 minutes or less. But by allowing 90 minutes, that gives extra time to work on problems that you might get stuck on; it provides time to check your work; it provides more space for students who don’t work fast; and it provides enough cushion so that you can just focus on your test without being distracted by worrying about the clock.
   2) If you do take proctored tests, you will want to arrange for a 90-minute time block.

5. **PROCTORED TESTS WILL NOT BE RETURNED.** Given the flexible test-scheduling, I will not be able to send you copies of your graded tests. Local students can see graded test in my office, and Zoom-proctored may have that option too. This is one aspect of online organic that can’t mirror regular class. But no practical way I can get around it. Sorry. 😊
