

What About Lab?

1. Online lab is not available! 😊 (Surprise!)
 - a. I do know about one or two schools that do offer online o-chem labs. Contact me if you want more information.
2. Lab (1 credit) and lecture (3 credits) are separate courses as MSUM. They do not need to be taken concurrently.
3. Non-MSUM students: if your school has combined organic lecture/lab course, then my online lecture-only courses will presumably not transfer well or work well for you. But if your school also has labs separated, as at MSUM, then these courses will transfer well.
