Text and Materials For Chem 350/Chem 360 Fall/Spring 2017/2018 (see below for buying used and cheap):

- I appreciate how expensive new textbook and solutions manual are. I am not using the very newest version of the text. As a result, you can buy used copies cheap! I have Amazon links below.

1) Buy both Text AND Student Solutions Manual that matches.
   - Buy the solutions manual that matches your text
2) Any of 8th, 7th, or 6th editions are good, and are available used. (9th edition is the newest, so it’s really expensive.
3) The notes and lectures for class use the 7th Edition, which is really cheap. The 8th and 6th editions aren’t very different, and used textbooks are now available and cheap. The newest edition from the publisher is the 9th edition, which is really expensive. So, I recommend saving many dollars and buying a used 7th edition if you can, or a used 8th edition

On-line Electronic Homework: For both Organic I and Organic II, we will be using some on-line homework problems through Sapling Learning.

- To connect to the website where you can register: http://www.sapplinglearning.com/
- For some instructions on how to register, see:

Lab: Chem 355/Chem 365 Fall/Spring:

a. Safety Goggles
c. A lab manual will be made available that can be printed from the website.

Optional Alternative Textbooks: Carey and Giuliano

Some of you may have taken organic chemistry before and may already have a textbook and solutions manual other than Wade. If it is one of the textbooks used currently or recently at NDSU, you could use that. I will be able to essentially provide an alternative syllabus, with reading assignments for your textbook and listings of textbook problems that are appropriate to use for study practice. Contact me for details. The textbooks that I can support are: "Organic Chemistry", 8th, 9th, or 10th editions, Carey and Giuliano. This is the book that has been in use at NDSU. You should have the solutions manual as well.

1) Buy both Test AND Student Solutions Manual that matches.
2) Text: "Organic Chemistry", Carey and Giuliano
3) 7th Edition (Amazon link, cheap!! Both textbook and solutions manual linked from this site):
   4) 9th Edition:
      - Amazon (Modest !! You can find both the textbook and the solutions manual from this site):
      Text (cheap): https://www.amazon.com/gp/offer-listing/0073402745/ref=dp_opl_used?ie=UTF8&condition=used
      Solutions Manual (not cheap):
   5) 10th Edition (newest, so very expensive!!) Amazon:
      Solutions Manual (pricey):
   - V10 is the standard organic books used in the NDSU fall/spring course since Fall 2016.
