

MSUM Library

honors the 2008 tenure and promotion of

Linda Fuselier

Biosciences

Malcolm, Bill & Nancy. *Mosses and Other Bryophytes - an Illustrated Glossary*, 2nd edition. Micro-Optics Press, 2006

Associate Professor Fuselier chose this book because:

This is an essential book for anyone studying bryophytes. It is beautifully illustrated with amazing photographs that facilitate identification of bryophytes. Hopefully, it will be used at MSUM by budding plant biologists.
