Chemistry

Hart, Michael H. *The 100: A Ranking of the Most Influential Persons in History*.  
Citadel Press, 1992

Assistant Professor Lahti chose this book because:

This book gives biographies on 100+ influential people in a variety of fields, and tries to examine the long term impact of their lives. I have found it very useful when setting scientists in their appropriate historical context, and history and nature of science is central to my work.
