

Can you program a robot to make a sandwich?

What you need:

- Index cards and pens/pencils.

What to do:

- Go and look at the sandwich making supplies in the Robot Exclusion Zone.
- Discuss the steps needed to make a sandwich with your group.
- Have each group member write one or more steps on an index card.
- Give steps to Sandwich Robot.
- Hopefully eat the sandwich.

Safety Note:

- Don't eat anything you don't want to eat! (like stuff that falls on the floor)
