

**I found this weird rock. It was stuck to me.
I wonder what it does?**

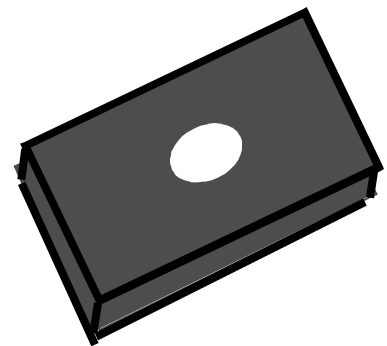

What you need:

- A weird black rock.
- A few toothpicks and Q-tips plus a nail, penny, washer and aluminum foil.
 - ✓ If you have already done the [Light Me Up](#) activity then you should already have these objects.
- Gather this stuff to share in your group.
 - Masking tape, Markers, Paper, Scissors and extra Magnets to share

What to do:

- Explore with your black rock.
- Write down any thing you observe. Share your observations.

- Can you make your rock "levitate" (float in the air)?

Challenge:

- Make something fun like a game or activity that uses your black rock.
