SUBMISSION INSTRUCTIONS

Each time that you are requested to submit your portfolio for review, follow the instructions below:

1. Open your completed assignment and at the top of the page, click on "Submit for Review."
2. Enter your instructor's last name (or SARTE if you are submitting a document to SARTE) in the box called "Send to Reviewers."
3. WAIT! (this may take a minute to load) Wait for the LiveText program to locate all instructors with that last name.
4. Select the correct instructor from the list (if more than one choice appears).
5. Click "Send."
6. Wait for the "Sending was successful" message. When that appears, you are finished submitting!

Submit your Capstone Portfolio Unit to "supervisor":

Overview

PORTFOLIO DEVELOPMENT

This portfolio will be assessed at several intervals throughout your educational experience at MSUM. Each time it is submitted for review, it will be scored with a specific rubric which will be shared with you by your instructor. It begins in ED 205 with the Learning Project, Parent Communication, and Student Communication pages; followed by completion of the Assessment page during your assessment course; and finally submissions of the remaining items during your final year. This portfolio is your internet space to keep your documents safe throughout your education, use it freely even when it is not specified by course instructors. (Review the "Evidence of Standards" and "History" sections.)

Portfolio Assessment: refers to a purposeful, continuous, varied collection of authentic student work across a range of content areas that exhibit the student's efforts, achievements, and progress over a period of time.

Portfolio: an organized, goal-driven documentation of your professional growth and achieved competence in the complex act called teaching.

Type in individual names or usernames.
(example: John Doe, Jane Smith, or janesmith)

SUMMARY & INSTRUCTIONS

Utilize this page to collect sample assignments that show evidence you've met the standards throughout your education courses. Upload any assignments you feel may meet the criteria throughout your experiences. In addition to the upload, write a brief summary detailing which course the assignment is from and how you feel it meets that particular standard. During your final student teaching experience you will have an opportunity to edit and finalize this page before submission.
