10 / 20

$\blacksquare Reserved Symbols in \blacksquare T_EX$

Some "Reserved Symbols" in $\mbox{\sc brack}TEX$ are: $\, \sim,$ \$, %, &, #, _, {, }, and $\wedge.$

Prof. Fagerstrom (MSUM)

Math 291: Lecture 1

January 11, 2018 11 / 20

$\blacksquare Reserved Symbols in \blacksquare T_EX$

Some "Reserved Symbols" in $\mbox{\sc brack}TEX$ are: $\, \sim,$ \$, %, &, #, _, {, }, and $\wedge.$

The reason these symbols are reserved is that they each perform a special function within $\[\] TEX.$

Prof. Fagerstrom (MSUM)

Math 291: Lecture 1

January 11, 2018 11 / 20

< □ > < □ > < 三 > < 三 > < 三 > < □ > < □ > <

M Reserved Symbols in PT_EX

Some "Reserved Symbols" in $\mbox{\sc brack}TEX$ are: \backslash , \sim , \$, %, &, #, _, {, }, and $\wedge.$

The reason these symbols are reserved is that they each perform a special function within $\[Mathebar]ET_{E}X$.

The \setminus indicates to PT_EX that there is a command rather than text.

Prof. Fagerstrom (MSUM)

Math 291: Lecture 1

< □ > < □ > < 三 > < 三 > < 三 > < □ > < □ > <

January 11, 2018 11 / 20

\blacksquare Reserved Symbols in $\blacksquare T_E X$

Some "Reserved Symbols" in $\mbox{\sc brack}TEX$ are: \backslash , \sim , \$, %, &, #, _, {, }, and $\wedge.$

The reason these symbols are reserved is that they each perform a special function within LATEX.

The \setminus indicates to $\mbox{\sc bt}TEX \,$ that there is a command rather than text. The \sim is a "hard space". Put one after the $\mbox{\sc bt}TEX \,$ command to fix the spacing issue in your document.

Prof. Fagerstrom (MSUM)

Math 291: Lecture 1

<ロト < 回 > < 三 > < 三 > < 三 > < 三 > 三 の Q (* January 11, 2018 20 / 20

- Suppose you are explaining polynomial long division to a group of people and you don't want to go through the trouble of manually typing out the solution to the example that you are using to illustrate it.
- In your preamble (that is, between the documentclass and begin commands) type

• Now in your document somewhere type

 $\operatorname{v}_{x^3+x^2-1}_{x-1}$

• Now build your document, and see what happens.

Prof. Fagerstrom (MSUM)

Math 291: Lecture 1
