

How to enroll into the ACHIEVE online homework problems required for this course:

Short Synopsis:

1. Go to: <https://achieve.macmillanlearning.com/>
2. Click on **"I Need to Enroll in a Course"**
3. Enter your course ID as given to you by your instructor (see website, syllabus, email, or request)
4. You then have two options:
 - a. Purchase Access Online: Select the access period you want to buy. Add it to your cart. Create an account. Follow the check-out process.
 - b. Already have a code: Simply enter in the code you have either purchased or received. Create an account and you're in.

Longer with More Step-by-Step Details:

1. Go to: <https://achieve.macmillanlearning.com/>
2. Click on **"I Need to Enroll in a Course"** (in the lower left quadrant)
3. **Enter the Course ID** (this is specific/unique to each course).
 - This is listed on Dr. Jasperse's website
 - This will also be listed within the class syllabus.
 - This will have been emailed to students with the subject line:
 - "chem350online: ACHIEVE/Sapling Registration (Online Homework system)" or
 - "chem360online: ACHIEVE/Sapling Registration (Online Homework system)"
4. Click **"Purchase Achieve Access"** button
 - This is the most direct, cheapest payment and the way to go.
 - The "enter access code" would apply if you purchased access from the bookstore. Hopefully the bookstore will have access code cards, but I'm not totally sure?
5. **Add it to your cart.**
 - If first time using "Achieve", you may need to fill in account information, with email and password and stuff at this point? Or maybe that will happen later....
 - Note: *IF* it's Organic I you are adding, there will be an option to buy two-semester's worth of access at a reduced cost.
 - If it's O2 you are adding and you'd previously paid for 2-semester's access, you'll get a button that prompts you to use that previous payment.
6. **Checkout.**
7. **Create Account** or Sign In
